

## COMMUNICATION 57 May 07, 2021

### Families, Residents & Staff

The case numbers are evidence that measures must be taken immediately to maintain safety for all. With the new Public Health restrictions in effect, and serious thought and discussion we are requiring that:

- visitors follow PPE protocol STRICTLY. DO NOT DROP THE MASK!! DO NOT EMBRACE PLEASE!!! DO NOT SHARE FOOD or BEVERAGES.
- Please do not take your loved one out of the building. If you do, please contact me as there are isolation policies that will need to be adhered to.
- It is fact that PPE works!
- Distance appropriately!

I also would like you to consider an alternate visit day. Lessen the numbers of exposures as so many are visiting. Every little thing we do helps.

### IMPORTANT NOTICE

We were advised late last evening that a staff member (who has been vaccinated) tested positive. The individual was asymptomatic. This is deemed as low risk and has not been to the workplace in 5 days. We have alerted the residents in this matter. In speaking with Public Health, we are at low risk and not deemed in outbreak status. An important note here is that proper PPE was diligently followed as proper PPE was always in play while on duty. To my point above with visitations.

This incident speaks to the fragile state that all of us are in. All our lives are in each others' hands.

As usual, Call or email if you have questions and suggestions. Stay Safe!!!

Please respond to my email and not Heathers TY

Linda
