

Riverwood Square

COMMUNICATION 76 Dec 09, 2021

OMICRON

We think it important to address this latest variant's arrival. Shared Health has advised that having the booster **is significant** in fighting this variant. If you have a family member that has only had the two vaccines, please be mindful of when they would be eligible for the booster. Its also important for families of Riverwood Square to get the booster. We also know that maintaining safety as outlined below is also very important and practicing safety WORKS!!

We also know that this variant will be the dominant strain very soon-and with the holiday season and gatherings the risks are great. *We encourage you to do your visiting with your loved ones at Riverwood Square- in their home. There are many areas in the building that folks can visit safely.*

Safety for All- Change in visit areas.

We are all weary of Covid and all things that come with it. Wearing the mask, dropping the mask, sanitizing our hands etc. BUT ITS IMPORTANT- The current numbers of infections are all too real and that means RISK. Please, when you visit- always wear your mask. Please sanitize and screen when you enter. **Families may attend the public areas- Bistro or Fireside Lounge for visits. Note: No in person dining please.** Please sanitize after you have visited.

Holiday Gratuity- Deadline December 15th

The holiday season is rapidly approaching. The Resident Council on behalf of the residents has requested that we accept cash gratuities as a thank you for the staff of The Landing and Harmony Court. Gratuities are collected and distributed to the staff. Monetary gratuities must be cash only as we have no way to cash checks. Please address the envelope to Linda Sherrin and clearly identify if it is for Harmony Court or The Landing. We thank you in advance and it is most appreciated.

Thank you for all the support. Call if you have questions or concerns 204-594-1267.
